

CJ Rush

Classic Revolving Door

The Classic Revolving Door (referred to internally as 500 Series) is an innovative manual revolving door designed for use in a wide variety of applications. It is environmentally friendly, helping to improve energy efficiency in buildings and interior comfort while reducing infiltration of dust and dirt into the building entrance.

For use in applications such as office buildings, restaurants, and banks, our surface mount revolving door is designed with the long-lasting quality the industry has come to know of Rush products. The over-head mechanical speed control will provide many years of trouble-free service.

All specifications are subject to change.
